

## Ⓢ FULL-AUTOMATIC

# TPM 746

## ECOflex

full-automatic, hydraulic  
Multifunction-Machine  
with 6 stations, 4 colors  
& revolving table

photo without accessories

low power consumption

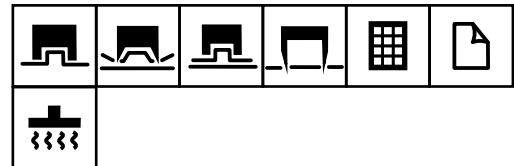

DIN ISO9001

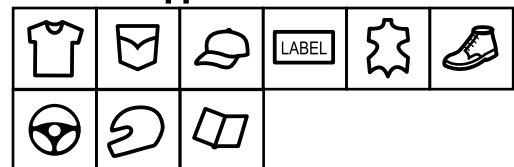

different int. Patents apply

- **functions:** embossing, PVC / flock welding, hot-foil stamping, die-cutting, screenprinting, transfer-printing, drying, combinations
- **applications:** textiles, denim, caps, labels, leather, shoes, automobile, motorcycle, paper
- used for raw materials & finished goods like: t-shirts, caps, labels, greeting cards, signs, wood panels, metals, etc.
- **features:** material programs, user programs, program history, required supplies show in display, functions help menu, calculation of piece cost, 7-day timer, lock / unlock function, sample program, error messages, gallery, accessories, display of other machines, stroke adjustment, multi index, foot pedal, speed variable, turnable touchscreen, full-automatic screenprinting, screen micro adjustment, 5 pneumatic cylinders per color, 2 squeegees per color, squeegee angle adjustable
- **technical data:** full-automatic
- color touch screen 10,4"
- high speed & power CPU
- stainless steel revolving table diameter: 2020 mm
- workstations: 6
- screens: 21x17", 530 x 430 mm, 4 colors
- stainless steel heating plate: 400 x 500 mm
- high pressure hydraulic system: 15 tons / 200 bar / 2900 psi
- production capacity: up to 700 pieces / hour
- power supply: 400 V / 4,6 kWh
- net weight: 900 kg
- transformer for other voltages (optional)
- **optional accessories:** finished goods tables, cap frames, laser system with 4 beams for positioning with focus, silicone pads for transfer printing, die-cutting boards
